

HTML5 & CSS Fundamentals

9 weeks | OCT 24 - DEC 26, 2022 | Mondays & Wednesdays, 10:00 - 12:00 pm.

Onsite at Neighborhood House (179 Robie St E, St. Paul)

About HTML5 & CSS:

Join MTFS this Fall to start learning the main programming languages of the web!

During this 9-week course, students will learn HTML5 and CSS. Students will practice using a common development workflow that can prepare them for work in the industry, using Visual Studio Code and GitHub. Students will leave with a certificate from W3C and edX, as well as an online portfolio to share with employers.

Course outcomes:

- Certificates from W3C and edX
- A functional online portfolio to share with employers
- Foundational knowledge required for further certification and employment

How to register:

To register for HTML5 & CSS, or any MTFS Program, please apply online at techforsuccess.org, or scan:
